

REZA YASA PUTRA

DATA SCIENTIST

+62 831 7893 8753 | prezayasa@gmail.com | www.linkedin.com/in/rezayasaputra |
Padang panjang, West Sumatra

PROFESSIONAL SUMMARY

Computer Science graduate (S.Kom) specializing in Data Science. Backed by an intensive ML bootcamp (DBS x Dicoding) and hands-on experience as a Data Analyst Intern at IPDN. Proven track record of building deep learning models for facial classification and sentiment analysis, alongside managing IT operations and digital marketing. Proficient in Python, SQL, modern web frameworks, and data visualization

EDUCATION

Universitas Negeri Padang | *BSc (S.Kom) in Informatics* Aug 2022 -Jun 2026

- **Cumulative GPA** : 3.76 out of 4.00 (Cumlaude)
- **Publication** : Thesis research published in Journal of Authentic Research (SINTA 4 accredited), highlighting advanced computer vision application

RELEVAN PROJECT

Multimodal Deep Learning Screening System (Final Thesis) Feb 2026 -Jun 2026

- Developed web-based depression screening system integrating questionnaire + facial analysis (Custom CNN/Mini-VGG).
- Deployed client-side inference via TensorFlow.js, mapping 7 emotions to binary risk, achieving 65.28% accuracy on 7,178 images.
- Calibrated model to classify "Neutral" as Safe, reducing false positives.
- Integrated Google Gemini API for personalized psychological first-aid, ensuring Zero Data Retention.

EXPERIENCE

Data Analyst & IT Support – Institut Pemerintahan Dalam Negeri (IPDN) Jul 2025- Des 2025

- Developed sentiment dashboard with IndoBERT (>90% accuracy), analyzing 10K+ multi-platform comments to deliver real-time trends & feedback.
- Cleaned and processed operational records with Excel PivotTables, delivering monthly insights that improved reporting efficiency by 30%.
- Directed IT infrastructure for high-level state events, ensuring zero downtime and seamless execution of national protocols.

Machine Learning Trainee – Dicoding Indonesia x DBS Foundation Jan 2025 - Jun 2025

- Achieved 96/100 in capstone project, developing end-to-end ML application.
- Built predictive models (classification, NLP, computer vision) with accuracy up to 85%+.
- Conducted data analysis with Python & SQL, delivering actionable insights from large datasets.
- Applied teamwork, communication, and problem-solving skills in collaborative projects.

Digital Marketing Intern – APINDO (MSIB independent campus program) Sep 2024 - des 2024

- Launched e-commerce storefronts (Shopee, TikTok Shop, Tokopedia) and social media campaigns, securing initial online sales, 200+ new followers, and thousands of organic views.
- Trained SME owners in live-streaming and product photography, while automating workflows via WhatsApp Business and designing QR-integrated catalogs.
- Optimized operations with dynamic Excel templates for cashflow and inventory, contributing to the SME winning 3rd place in Best Group Award at APINDO/MSIB Program.

- Built grid layouts and interactive UI components (content cards, pop-up modals) with Next.js, TypeScript, Tailwind CSS.
- Developed external routing buttons for social networks and directories, ensuring smooth navigation.
- Managed version control via GitHub with 100+ commits, supporting feature updates like dynamic views and API integrations.

ORGANIZATIONAL EXPERIENCE

- Organized internal training, extracurricular activities, and work programs to facilitate student talent development.
- Led the bureau inauguration as Chief Executive and effectively coordinated cross-division collaboration for organizational events.

SKILLS

Hard Skills

- Data & AI: Machine Learning, Deep Learning (CNN/TensorFlow.js), NLP, Data Visualization, Microsoft Excel .
- Programming : Python, SQL, TypeScript.

Soft Skills

- Analytical Problem Solving, Project Management, Creative Thinking, Attention to Detail.

CERTIFICATIONS

- Developed end-to-end ML models in NLP, Predictive Analytics, and Computer Vision, earning a 96/100 capstone score.

- Certified in AI fundamentals, machine learning, and deep learning frameworks through official industry assessment.

- Mastered advanced data processing techniques, complex PivotTables, and structured reporting for data analysis.
